Arlington County, Virginia

Department of Real Estate Assessments
Real Property Identification Map
2025 edition

Welcome to the year 2025 edition of the Real Property Identification Map Book. The book is published annually by Arlington County's GIS Mapping Center for the Department of Real Estate Assessments. The property data in the map book is a compilation from recorded plats and is not a legal document. The GIS Mapping Center strives to make the Map Book an accurate and complete representation of Arlington County's real property.

The Map Book contains real property information gathered by the Department of Real Estate Assessments, and zoning information provided by the Zoning Office of the Department of Community Planning, Housing and Development. These departments are considered the data owners, whereas the mapping services are provided by the GIS Mapping Center. If errors are found, please report them to the appropriate agency.

The Map Book consists of nearly 500 individual 11" by 17" map sheets, at a scale of one inch equals 100 feet. For this 2025 edition, property and zoning information are current to January 1, 2025, as noted by the copyright 2025 date at the bottom of each page.

Arlington's GIS data is created and maintained in ESRI's ArcGIS Pro, using Virginia State Plane North, NAD 1983. Cadastral, political and zoning data layers are maintained on an ongoing basis. Potomac River data was derived from USGS 1:24,000 DLG files.

Pursuant to Section 54.1-402 of the Code of Virginia, any determination of topography or contours, or any depiction of physical improvements, property lines or boundaries is for general information only and shall not be used for the design, modification, or construction of improvements to real property or for flood plain determination.

Please email any comments, questions or corrections to GISMC@arlingtonva.us. You may also send by U.S. mail to the following address:
